

TEN CENTS FOR TECHNOLOGY!

To raise funds to support the technology used by students at Parramatta North, we will once again be conducting a **10c challenge** throughout Terms 2 and 3.

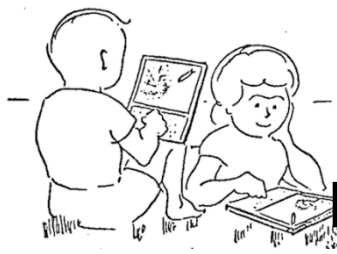

We are raising money for infinity laptops!

Students are asked to collect 10c coins (or any coins) throughout the term. Each classroom will have a container for students to deposit their coins.

All containers will be counted and the class with the most money raised will receive a prize.

Students have a wonderful opportunity to ask family and friends to clean out their wallets, purses and anywhere coins might hide!

Start collecting, the challenge is on
