

STAGE ONE RESOURCE PACK 2023

Encouraging and developing independent workers and creative, divergent thinkers is a core aspect of teaching at our school. Students regularly participate in cooperative learning activities that involve formulating and recording their ideas or ideas with a partner or in a group. To assist with the development of these skills, Stage One students are required to purchase a resource pack at the cost of **\$35**.

The pack includes:-

1 individual magnetic whiteboard
1 plastic folder (home reading)

2 whiteboard markers
1 set of headphones

2 glue sticks
1 Tote Bag

These packs are already in the classrooms and being used by our Stage One students.

All students receive their own set of high quality headphones. The headphones will be used to listen to interactive activities when using computers, ipads and their XO, in future years. The attached microphone will also allow the students to record their own voices. These are for individual student use and sharing will not be permitted. Lost or damaged headphones will need to be replaced, at cost to the student.

All items will be stored and used regularly in the classroom. **The class teacher will advise you in writing when an item needs replacing.**

The whiteboard, folders and headphones will be collected and stored at the end of the year so they can be handed out ready for use in classrooms next year.

Please complete the form below and enclose it with **\$35** in an envelope. All money **MUST** be in a labelled envelope and handed to the class teacher. Alternatively, an online payment can be made (in the payment options, tick Sales to Student) and your receipt number recorded on the return slip below.
